Half Time and "The Pit"

by Oliver Murray
Seaside Councilman

At half time it looks like the "Seaside 1200" have things well in hand having repudiated the four Council members who have tried against enormous financial and publicity resources to gain some degree of public responsibility over the affairs of the Seaside Urban Redevelopment Agency.

It is a stunning commentary on our value system to see how a city of 20,000 people (4500 registered voters) could allow 1200 pawns of the city hall patronage system to perpetuate an out and out scandal wherein $20,000,000 in Taxpayers money allocated to the economic development of a city has produced the slowest municipal growth rate in the County but the most efficient political patronage system.

Since it is the business of journalism to honestly inform we shall continue to attempt to strip the factionalism from the facts and inform so that the decisions of the electorate in Seaside can be deliberate and politically responsible. Corruption can only prevail in a climate of ignorance or apathy. Apathy is the modern vestige of slavery. Freedom and opportunity are American Birthrights. They begin with the citizen's vote. Apathy is the poverty that grips Seaside in a real paralysis of progress obscured by an illusion of tax dollars.

Today let us look at another mind-bender, THE PIT. This has been the Mayor's personal target for the last 18 months. It is a great target for the racist's hate. How they love their devils black! It is the kind of blind hate that obscures the economic exploitation involved. The scenario of course is the casting of the MAYOR as chief crusader for a combination of Mike Marotta and Marotta's associate Dominec Mineo.

Mr. Mineo is employed by Mr. Marotta as a real estate agent. Mr. Marotta is the long time agent for Mr. Haddad. The Marotta agency is agent for the PIT transaction, an obsolete shopping center on Broadway near Noche Buena Street in Seaside.

Originally Mr. Haddad and Mr. Marotta proposed that the city buy the PIT for $105,000 by trading the old city hall; trading both properties at an equity value of $62,000, and having the city pay off a $43,000 loan at 6% interest. The cost to the Seaside taxpayer of paying off this loan as it exists amounts to $50,700. Thus to acquire an obsolete shopping center the people would have paid $62,000 (the old city hall) plus $59,700 (loan pay-off), or a total of $121,760!!!

As suddenly as the deal was held up to inspection the Mayor and his promoter friends had a quickie "bargain" substitute offer - with a time limit for acceptance of three days including a weekend.

This alternate bargain would have given Seaside the PIT for $95,000. Note, however, the terms of the "deal." The equity of both properties was reduced to $52,000 (a $10,000 reduction in a seven day period.), and Seaside was to still pay off the $43,000 loan on the PIT at a total cost of $59,700 (ten years at 6% interest.)

In the meantime a memorandum to the Council, including "His Honor" Mayor Haddad, from Mr. Milton Farrell advised the council that an appraisal by the Bank of America indicated that the properties were of equal value.

Why should the citizens of Seaside assume the obligation of a $43,000 loan with a pay off cost of $59,700? Why should price manipulation create a $43,000 windfall for Mr. Dominic Mineo? What does Mr. Haddad owe Mr. Mineo? What would Mr. Mineo owe Mr. Haddad for the windfall and the added blessing of relieving him of the headache of a deteriorated property that finds no buyers on the open market? These questions could not even be placed before the Haddad, Houser, Schmidt council. Why not? The Mayor forced a vote to consent to the sale.

Fortunately that sale could not be completed before the current council was elected. They properly refused to complete it, for there was every evidence of a $59,700 swindle of the poor Seaside taxpayer. Mr. Mineo was be Seaside's Lockhead.

Mayor "His Honor" Haddad retaliated the council action by suggesting that his cronies just might sue to compel performance (it was a out and out invitation to sue). And Mr. Mineo immediately did file suit. The suit went to court. Mr. Haddad testified so strongly for his cronies that Judge Lawson had to remind "His Honor" that as the Mayor of Seaside he was a defendant not a plaintiff in the case!! Imagine that.

The city won the case. Judge Lawson upheld the decision of Councilmen Murray, Ross, McGrath, and Councilwoman Carey that the City had complete justification for refusing the "deal" The best efforts of "His Honor" to subject Seaside to a $59,700 bath for the benefit of Mineo, Marotta, (and Haddad?) seemed doomed to failure.

CLEAN UP - Over 1,000 local Boy and Cub Scouts participated in last Saturday's Project SOAR (Save Our American Resources) litter pick-up campaign. Here is just small portion of trash gathered and piled in parking lot of McDonald's Hamburgers. Marvin Rapose, general manager of McDonald's (left rear) showed his appreciation for their effort by giving boys ticket which entitled them to one free meal at McDonald's. Employees of Seaside's Public Works Department volunteered their services and hauled away truckloads of litter.

Grunsky Supports Wild Rivers Bill

State Senator Donald L. Grunsky, expressed his support for Senate Bill 107, the so-called Wild Rivers Bill.

Introduced by State Senators Peter H. Behr (R-Marin County) and Robert J. Lagomarsino (R-Ventura County) SB 107, with Grunsky as a co-author, creates the California Wild and Scenic Rivers Act. It has been approved by the Senate Natural Resources and Wildlife Committee and is soon expected to be heard in the Senate Finance Committee.

Grunsky, who is a member of the Finance Committee, said, "I am extremely hopeful that the members of the Finance Committee will approve SB 107 which would assure preservation of Northern California's Eel, Trinity and Klamath Rivers."

Grunsky explained, "This legislation was introduced after the State Department of Water Resources reported that the State had over-estimated the amount of north state water needed to serve southern California during the next decade.

"I am sure that most people will agree that if dams or other barriers were allowed to be built on these rivers, that we would lose some of our greatest natural resources.

"Many sportsmens' organizations are in strong support of this bill for the reason that these rivers provide some of the most excellent sport fishing in the country." Grunsky said.

"The Klamath, Eel and Trinity Rivers," he added "rank first, second and third respectively in catch of steelhead and the Eel and Klamath rank high in the yield of Silver Salmon."

"I am pleased to be able to co-author this bill which if it becomes law could qualify these rivers for inclusion under the Federal Wild and Scenic Rivers Act of 1968. Under this act, the Federal Government assumes all costs of land acquisition while the State would be responsible for the administrative costs." der the Federal Wild and Scenic Rivers Act of 1968. Under this act, the Federal Government assumes all costs of land acquisition while the State would be respobsible for the administrative costs."

No Hunting Til August 7

Despite the fact that 1971 rabbit and early archery deer seasons have been scheduled to open early in the month of July, there will be NO hunting on the Ft. Ord Complex, which includes Hunter Liggett Military Reservation, until the regular deer season opens on August 7, 1971.

This ruling was brought about by the scheduled heavy use of the areas in question for military training during the month of July.

Legal Aid Is Expanding Welfare Help

In response to the increasing demands of welfare recipients for assistance in their dealings with the Welfare Department, the Legal Aid Society of Monterey County has decided to devote more attention to this area.

The new services are designed to help people who are seeking or receiving aid -- welfare, Food Stamps and Medi-Cal. Common problems arise when aid is denied, cut off or reduced, or when the welfare Department fails to meet legal time requirements.

Special problems have arisen in this county when the Welfare Department has delayed eligibility determinations more than thirty days, or when aid has been cut off without advance notice of seven working days.

Special emphasis will be placed on the use of the fair hearing, which is employed when appealing decisions which the client considers unfair. The Legal Aid Society has now increased its staff with specially trained personnel to assist clients in handling their fair hearings. This is the most effective legal tool for insuring the rights of all welfare clients.

People who want more information or advice in welfare matters can come to the Legal Aid Society at 1070 Columbus Street in Seaside or call 394-8571.

Seaside Ripples

A.E. Barragan

Apathy and indifference are the two dangers facing the peopleof this country today. We could end unemployment tomorrow; the war in Vietnam could be brought to a halt in short order; the tax burden could be equalized and thereby lowered and pollution could be erradicated if people would only become aware of what is going on about them. This includes being aware of their responsibility to themeselves, to their families and to their brother. Nobody can do anything to correct the ills I mentioned above except yourself. When YOU become sufficiently aroused to the dangers of our society presented in the dilemna of our politicians' inability to solve any of the serious problems that beset our country today, then, and not until then, will those problems be solved-by you and not by that politician.

A good example of what I am trying to point out can be seen in the June 1, in which less than 40 percent of the voters of Seaside turned out to decide an issue which has divided our community for the past year or more. I have a feeling as I write this that most of the readers (if I have any) don't even know which issue I am talking about or whether there was even an election held on June 1. For those that might not know or remember, the voters of this city were asked to decide whether or not they wanted their city council to take over the duties of the Urban Redevelopment Agency. Out of a total of 5,150 eligible registered voters, 997 voted "yes" and 1120 voted "no". That means that 3,033 voters either didn't know about the election or didn't

'The Pit'

Continued from page 1

Well oiled political machines do not, however, let the court system stand in their way. Experienced legal technicians provided them with a provisional way to thwart the intended decision of the court. The Haddad, Marotta, Mineo group quickly pleaded for the court to stay the execution of judgment in order to prevent it from becoming law of record. They requested a rehearing on the basis of new evidence, and requested a continuance until July 28 for the presentation of that evidence.

In the meantime as with all well oiled political machines the Haddad - Weingarten political monster travelled on other roads so as to achieve the same destination. The B. J. Dolan Division of their Conspiracy sailed along at full tilt deriding the four councilmen for the costs of the litigation that the Haddad initiatives had created The Recall, The PIT litigation - the Costs of a Refrendum and a Recall election. And they call him "HIS HONOR".

To be concluded Nex week.

Along the coast it is very difficult to get plants to grow well. The sea spray, wind and sandy soil play havoc with tender young plants. In this problem climate, it is necessary to favor the plants in every way possible until they become well established. After the two or three years it takes them to become well established, the plants will adjust to climate conditions. Their leaves thicken and harden themselves to meet windy cold conditions, and they are able to survive with less care.

The first step in getting plants to grow well is to pick plants that will survive these conditions and adjust well to the climate.

Next the soil must be prepared to insure the best growth. This is done by digging to a depth of three feet for each plant and adding 50 percent organic material. The organic material can be any fibrous material, such as a combination of steer manure and rice hulls, or redwood mulch and sludge. Also added in the planting is a balanced fertilizer with low nitrogen content. Use a ten pound bag to cover a 1000 square feet area. The low nitrogen fertilizer is used because nitrogen promotes fast growth and this new growth is burned off by the wind in the ocean conditions. With this fertilizer plants will still produce new foliage, but at a slower rate. However, this new growth will be smaller and tougher, giving the plant more time to adjust to the wind.

After planting, watering is very important. The plants must be watered three times a week to a depth of 2-3 feet. It is most important that they are watered regularly and deep.

Next, I will discuss ways of screening the new plants from the wind, and list the hardy plants that will take our sea coast conditions.

You are being overtaxed, and we want to do something about it!"

Monterey Bay Teachers Association

We would like to show you how to improve your schools with $2,426,186 additional funds, while lowering your tax rate 58.4c. Sound impossible? Then consider Senate Bill 801, and Assembly Bill 1406.

Either of these bills would equalize money allocated to districts throughout the state, so that the less wealthy districts (That means Monterey Peninsula Unified School District) would get a fairer share of the money, according to need. We would pay a smaller tax, and benefit from the highly taxable industries in the more wealthy districts. If this sounds like a good deal to you, (and after very careful consideration, it does to us) please let our Senator or our Assemblyman know! (A post card will do.) The table shows how the bills could affect our area.

District	Amount gained from bills	Tax rate to maintain existing school program	Increase or decrease in tax
Carmel	———	4.2314	+1.6404
MPUSD	$2,426,186	3.3700	— .5840

care enough to get out and vote. I can only conclude that they didn't care enough because all of the news media carried stories almost daily for weeks before the election-radio and television covered the story many times and the daily Peninsula Herald ran two main editorials on the issue, not to mention the fact that we have editorialized on the same issue over and over again. There was no excuse for the voters not knowing about the election.

The voters of Seaside shouldn't feel too bad though about not having voted. The voters over in Salinas did even worse. Only 35 percent of their voters turned out to fill three vacancies on their city council. None of the incumbents were in the race and with a field of 12 candidates the election presented a beautiful opportunity to elect someone who would truly represent the community. Still, less than 35 pesent turned out to avail themselves of that opportunity. This is not to say that those who were elected won't represent the community but the best that they can say is that they only represent 35 percent of the voters.

The dangers inherent in such a small turnout of voters is that a small minority can control the destiny of a city. In the case of Seaside, 1120 or about 21 percent of the registered voters can decide any issue. This small amount of voters is even less than signed the petitions for the recall of the four members of the city council. This is why demogogues like Mayor Haddad can be "arrogant, trouble-makers" as the Herald editorialcalled him. He, and all other politicians like him know that the voters don't care and the he can always muster up that 20 percent minority to do as he says.

How long do you think that the Congress would allow the war in Vietnam to continue if they were at all afraid that ALL of the voters in their respective districts would get out and vote. Statistics show that over 70 percent of the people in the country want to get out of Vietnam-NOW. Yet, Congress continues to let this disgraceful waste of our manpower go on. Unemployment is at its highest point in 20 years, yet, when programs are presented in Congress to alleviate unemployment, they either don't get passed or else the president vetoes them.

Here in California, our arrogant governor can go around cutting welfare programs to the point that the Federal Government even has to call him on it. Why does he do this in the face of the worst depression we have had since the thirties? Because he knows that the voters will not call him on it and, more importantly, he KNOWS that those most effected won't even bother to register to vote.

In the case of our Mayor, in the case of Congress and our President, and in the case of our governor, the all know that the people don't really care enough to register and get out and vote. They know that no amount of protesting with picket lines and signs and shouting is going to make them change things. No amount of petitioning, unless it is followed up with registration and voting, is ever going to make them quaver. Politicians will continue in their arrogant, self-serving manner until the voters of this city, state and nation become aware of their responsibility to themselves and to their brother. They must register and get out and vote in every election regardless of the issue. Then we can truly say that we have a democratic form of government.

Letter To The Editor

Editor: Having been invited to attend a forum sponsored by the group known as the Friends for Good Government, to be held at Seaside City Hall, June 15 to 8 p.m., Iwish to give notice that I respectfully decline the most generous invitation. After studying the results of the election recently held in Seaside. I do not feel that I would be capable of making any suggestions that could improve the welfare or hapiness of the good citizens of Seaside. Out of the five thousand two hundred forty two (5,242) registered voters, only nine hundred ninety-seven (997) proved by vote that they wanted a voice in the future of the city. The people of Seaside do not need council members -- they need phrenological help! All we need do now is let Haddad get his own council elected -- then he and the Citizens for Good Government will destroy themselves. B. J. Dolan will be dropped as soon as Haddad has no need for him and his crusaders. So, you three thousand one hundred (3,100) nuts who did not get out and vote, I hope you get Urban Renewal crammed so far down your throats you will be too sick to yell -- you will be getting just what you deserve!

Editor: Distressed by public mis-conception, leaders of the California Association of Residential Care Homes Inc., want to set the record straight about the nature of their business.

There are distinct classifications of homes for the elderly in the State of California. They would like to point out that the Nursing Homes, Convalescent Hospitals, Residential Care Homes are vastly different.

Residential Care Homes are primarily for the aged and disabled and are licensed through the State Department of Social Welfare. Homes of 15 beds or less are licensed by the Monterey County Department of Social Welfare and those of 16 or more, by the State Department of Social Welfare, in San Francisco. The homes are stringently regulated and inspected by the State or local fire department, health department, building inspector and periodically, by the respective licensing workers.

Residential Care Homes are required by law to provide: accommodations in either private or semi-private rooms, three nutritionally well balanced meals per day, continued health supervision, emergency bedside care, but not extensive nursing care, a reasonable amount of personal laundry, personal care and assistance as well as supervision on a 24 hour basis and a program of social and recreational activities. The law also requires Code restrictions on minimum room sizes and maximum number of persons per room. MOST OF ALL there is required PROOF of financial solvency of the home.

Board and Card homes, on the other hand, do not need the stringent rules and regulations imposed on Residential Care Homes. Investigation of the Board and Care Home situation has been started in Monterey County as well as many of the counties throughout the State, because of an arson fire in such a facility in San Jose, recently, that resulted in a death; and 7 lives that were lost in a fire in such a home in Taft.

Assemblywoman Yvonne Braithwaite (D-Los Angeles) has authored Bill 344 now pending in the Legislature, that would require licensing procedures and fire regulation standards for the Board and Care Homes.

Elizabeth Johnson, owner of Cook Memorial Home and I, both active members of the Residential Care Home Association, have recently called on most of the Residential Care Homes in Monterey County and found the average home efficiently run, with a lot of compassion between the administrator, staff and resident.

Any one going into a facility of any kind, should check and made sure that the facility is licensed. Residential Care Homes often go under the names Rest Home, Guest Home, Care Home, Retirement Home, etc.

Mrs. Gladys Matthews,
Owner
Seaside Home

Editor: The Ad Hoc Committee of the Committee of 200 wishes to thank you very much for generous size ad which appeared in the Seaside News Post-Sentinel on behalf of the program "An Evening with Young Adults for Action" held at Sunset Auditorium last Friday night.

The program was a success in several ways. There was a responsive audience, the sociability afterwards was good and we are encouraged by the number of pledges already received.

Sincerely,
Meredith Mac Laury
The Ad Hoc Committee
of the Committee of 200

Editor: Over the past several months there have been some harshand damaging statements made about our public officials of Seaside. There have also been some good things said about us. And we public officials have added a few choice words of own toward each other. This applies to both sides of the controversy before us. As a personal policy, I do not react to any statement made about me as a public servant. I do this with the firm belief that my record of public service speaks much louder than anything I may say. (Anyway, I don't mind the "heat". It is good for the circulation).

Some statements, however, are more damaging to our community as a whole than others. An example of such a statement is this quote from the Seaside Community News, Vol. 2, No. 17, dated April 28, 1971: "We heard that Councilman Stephen Ross has promised 'bloodshed' if he loses his seat." Normally I would not react to this, but it implies something that further divides our community at a time when we need UNITY. The statement is not true. In fact, nothing could be farther from the truth. On more than one occasion I have stated that if leaving public life would unite our City, I would do so today or any day. We have the best community on the Monterey Peninsula, in my opinion, but we need help to keep the city working TOGETHER.

The task before us, as public officials, it seems to me, is to rise above the debate over petty issues, and between the rights of the individual and the rights of society as a whole, by uniting our efforts to achieve the rights of both. Now this is not easily done, but we must never stop working toward it. And you may take this from me. As indicated in the song "the two go together, like a horse and carriage". And "you can't have one" - for long - - "without the other."

Stephen E. Ross
Councilman, Seaside

As I See It

By Mel Vercoe
(Formerly WHO CARES)

Five million tons of TNT in a bottle with a cork in it - that is what we have coming up in a nuclear test this fall on the island of Amchitka, which is in the Aleutian Islands. A five magaton bomb will be detonated 6,000 feet underground, supposedly to learn more about the use of nuclear explosions in getting oil out of reluctant rocks, but probably more accurately to find out more about the bombs and detonating devices themselves. This bomb will be equal in power to 250 of the Hiroshima bombs, and a few people have expressed concern about safety because an earlier Nevada test explosion one fifth as powerful spewed radioactive fallout over three states.

If our scientists miscalculate and the Amchitka bomb blows the cork out of the bottle almost anything can happen. If about a cubic mile of pulverized radioactive Aleutian fock becomes partof our atmosphere, then we will be in trouble, because the natural air drift from the Aleutian chain comes down along the coast of Washington, Oregon and across northern California. If this happens perhaps only a few thousand will suffer radiation sickness, but the contamination of our food supplies, including Strontium-90 in our dairy products, will persist for many years, and we will admittedly have learned a great deal more than desired from our test. We know already what Strontium-90 does to our bones, but we have not yet learned that human beings were better off with spears and bows and arrows than with poison gases and nuclear weapons.

In a way it would be a great blessing if the cork does blow out. For almost thirty years the Hiroshima and Nagasaki bombs have kept a rudely awakened world from indiscriminately using nuclear bombs in several likely places, including Vietnam, but now we have forgotten Hiroshima and Navasaki, and the only real deterrents are retaliation in kind and the fact that a nuclear end to a dispute would shorten the dispute to the point of being terribly unprofitable, which is the ultimate deterrent.

And if we must have nuclear wars, lest we waste the world's supply of hydrogen bombs, then we will also have learned that virtually no preparation has been made to protect our people from such wars. The phony anti-ballistic missile system our President insists on selling to us will not stop enemy missiles. Its only value is in bostering defense contracts and our civil defense has been deliberately allowed to become defuct lest the possibility of war coming home to America detract from the glory and profits of war.

Admittedly there would be few survivors in a nuclear exchange, but the number of survivors could be greatly increased by even a small amount of training in fallout protection.

On the other hand, maybe a real good down to earth nuclear war at this time would leave just enough survivors that mankind could survive much longer on earth than if we build up to really big blowout twenty years from now. What is your opinion?

Do you want to believe in God?

You can. Not just because of what someone says about God. But because of what you yourself can learn and prove about divine Love.

Like the woman who was instantly freed by an assailant one night — when she turned to God in prayer. Or the entertainer whose back was healed through prayer after he was told he couldn't walk without surgery.

These individuals found that divine Love meets even the most challenging human needs ... that powerful spiritual laws are available for anyone to use.

You can learn more of these laws by reading this week's Bible Lesson.

OBITUARIES

RICHARD F. KENNEDY

Richard F. Kennedy of Seaside, May 31, 1971. Beloved son of Florence Starkey of Whittier, California; loving brother of Donald J. Starkey of Escondido, California and Margaret Thomas, also of Whittier.

A native of Anaheim, California; age 53 years.
